

PRESS RELEASE

PRYSMIAN GROUP TO ATTEND AT THE OFFSHORE TECHNOLOGY CONFERENCE (OTC) 2019

THE GROUP WILL SHOWCASE A FULL RANGE OF HIGH-TECH CABLE SOLUTIONS FOR THE OIL & GAS INDUSTRY AT THE UPCOMING EVENT IN HOUSTON, TX

Highland Heights, Ky., May 6, 2019 – Prysmian Group, world leader in the energy and telecom cable systems industry, will showcase state-of-the-art technologies at the Offshore Technology Conference (OTC) 2019, taking place on May 6-9 in Houston, TX.

OTC 2019 comes at a very important time for the Group as it is the first official presence in an Oil & Gas event in North America, following the merge with General Cable that has led to the creation of the largest cable manufacturer in the world.

The Group's booth (#3653) will feature the enhanced full portfolio of cable systems for the offshore oil & gas industry, including solutions for power transmission, distribution, instrumentation and control cables, including Type P and CCW cables. Examples of Core Cable solutions will be on display as well, alongside our new generation of integrated cable and protector solutions for Electrical Submersible Pump (ESP) applications.

Prysmian has pioneered the development of reliable ESP cables for more than thirty years and its success in the market with major oil field service companies has been a product of the continuous stream of innovations from the Group's research and development teams. In a continuously challenging market, extended operating lifetime of an ESP cable is critical to ensure economic production. Prysmian has created a family of products that operate in the harshest environments and we are committed to investing to help operators extend the operating life of our ESP cables.

Our booth display will also feature submarine cables for Power-from-Shore applications and Umbilicals.

Technical and application specialists will be on hand to discuss attendees needs and to recommend our best solutions. Attendees will also be able to explore the Prysmian Cable Solutions, SURF and PDT offers at one of our two kiosks, where they can use our click-to-view application to find the most suitable Prysmian solution for their application needs.

Be sure to visit Prysmian Group at **Booth #3653**. For more information about Prysmian Group and our Oil & Gas product offerings, please visit na.prysmiangroup.com/products-and-solutions/oil-and-gas.

Prysmian Group North America
