

ACCESSORIES PLAY A VITAL ROLE IN A POWER SYSTEM

Highland Heights, Ky., March 30, 2021 — With over 25 years of expertise in the design, manufacturing, testing and installation of cable accessories products across all voltages, Prysmian Group offers a comprehensive range of accessories for splicing, terminating, grounding and glanding applications. Our product portfolio includes Splices, Terminations (indoor and outdoor), Connectors, Loadbreak Elbows, Deadbreak T Bodies, Glands, Cleats and Fixings, Tooling and Resins.

As part of our ongoing efforts to provide education and knowledge on our products and solutions, we have developed a series of training videos for splicing, termination and grounding procedures:

Elaspeed™ Splices

- [25 kV Elaspeed™ Compact Splice Installation Demo](#)
- [35 kV Elaspeed™ Splice Installation Demo](#)

ColdFit™ Terminations

- [Outdoor Coldfit™ Termination up to 25 kV for Jacketed Concentric Neutral Cable](#)
- [Outdoor Coldfit™ Termination up to 35 kV for Jacketed Concentric Neutral Cable](#)
- [Indoor Coldfit™ Termination up to 15 kV for Metallic Tape Shielded Cable](#)

Loadbreak and Deadbreak Separable Connectors

- [15 kV Loadbreak Elbows for Metallic Tape Shielded Cable Installation Demo](#)
- [15/25 kV Deadbreak T-Body Elbows for Metallic Tape Shielded Cable Installation Demo](#)

AIRGUARD® Termination Videos

- [Three Conductor AIRGUARD® Termination up to 25Kv with Copper Tape Shields Demo](#)
- [Low Voltage AIRGUARD® Preparation and DRYLAM® Grounding Procedure Demo](#)
