

PRESS RELEASE

PRYSMIAN AND SIEMENS GAMESA RENEWABLE ENERGY SIGN NEW WORLDWIDE AGREEMENT
THE GROUP WILL PROVIDE CABLE AND ASSEMBLY SUPPLIES FOR WIND TURBINES IN 2020

Highland Heights, Ky., October 21, 2019 - Prysmian Group, the world leader in the energy and telecom cable systems industry, has been awarded a global contract to supply wind turbine tower and nacelle cables and assemblies for Siemens Gamesa Renewable Energy, a world leader in the wind power industry.

This award reaffirms Siemens Gamesa and Prysmian Group's long and solid history of partnership in the wind industry and is an important step in increasing current and future growth opportunities.

The supply includes products and services from Prysmian Group's wind portfolio of low voltage cables and assemblies for nacelle platforms, low voltage cables for towers and fully terminated medium voltage assemblies for towers, well renowned to be specifically designed and optimized to work with high torsion, mechanical and chemical resistance as well as wide temperature fluctuations.

The award also reconfirms Prysmian's approach as a 360° partner in the renewable power industry, able to supply from turbine tower and nacelle cables to inter-array and export cables, installation, project management and monitoring systems and solutions. In 2019, the Group has been awarded several projects like Provence Grand Large, Vineyard Wind, DolWin 5 and Hollandse Kust Zuid III and IV.

Fully supported by R&D centers located in each region, the Prysmian Group works in close cooperation with customers to design and develop products that exceed requirements and expectations while maintaining the highest level of quality and service.

Thanks to a globally widespread production footprint, the Prysmian Group is well-positioned to support the supply and delivery of products to Siemens Gamesa Renewable Energy, namely from manufacturing units located in Europe, Asia and North America.

About Prysmian Group North America:

Based in Highland Heights, KY, Prysmian Group North America operates in the United States and Canada. In July 2018, the Group finalized the acquisition of General Cable resulting in combined operations that include 23 plants, 6 R&D centers and over 5,800 employees.
